

Summary Prospectus

January 3, 2020

Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find the Fund's Statutory Prospectus and Statement of Additional Information and other information about the Fund online at <http://www.wcminvestfunds.com/small-cap-growth-fund>. You may also obtain this information at no cost by calling 1-888-988-9801 or by sending an e-mail request to fundliterature@wcminvest.com. The Fund's Statutory Prospectus and Statement of Additional Information, both dated December 31, 2019, as each may be amended or supplemented, are incorporated by reference into this Summary Prospectus.

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Funds' shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Funds, if you hold your shares directly with the Funds, or from your financial intermediary, such as a broker-dealer or bank, if you hold your shares through a financial intermediary. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. If you hold your shares directly with the Funds, you may elect to receive shareholder reports and other communications from the Funds electronically by contacting the Funds at 1-888-988-9801 or, if you hold your shares through a financial intermediary, by contacting your financial intermediary.

You may elect to receive all future reports in paper free of charge. If you hold your shares directly with the Funds, you can inform the Funds that you wish to continue receiving paper copies of your shareholder reports by contacting the Funds at 1-888-988-9801 or, if you hold your shares through a financial intermediary, by contacting your financial intermediary. Your election to receive reports in paper will apply to all of the series of Investment Managers Series Trust managed by WCM Investment Management you hold directly or through your financial intermediary, as applicable.

Investment Objective

The investment objective of the WCM Small Cap Growth Fund (the "Fund") is long-term capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

	Investor Class Shares	Institutional Class Shares
Shareholder Fees		
<i>(fees paid directly from your investment)</i>		
Maximum sales charge (load) imposed on purchases	None	None
Maximum deferred sales charge (load)	None	None
Wire fee	\$20	\$20
Overnight check delivery fee	\$25	\$25
Retirement account fees (annual maintenance fee)	\$15	\$15
Annual Fund Operating Expenses		
<i>(expenses that you pay each year as a percentage of the value of your investment)</i>		
Management fees	1.00%	1.00%
Distribution (Rule 12b-1) fee	0.25%	None
Other expenses ¹	0.64%	0.64%
Shareholder service fee	0.15%	0.15%
All other expenses	0.49%	0.49%
Total annual fund operating expenses	1.89%	1.64%
Fees waived and/or expenses reimbursed ²	(0.39%)	(0.39%)
Total annual fund operating expenses after waiving fees and/or reimbursing expenses ^{1,2}	1.50%	1.25%

¹ "Other expenses" have been estimated for the current fiscal year. Actual expenses may differ from estimates.

² The Fund’s advisor has contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that total annual fund operating expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with SEC Form N-1A), expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) do not exceed 1.50% and 1.25% of the average daily net assets of the Fund’s Investor Class and Institutional Class shares, respectively. This agreement is in effect until August 31, 2021 and it may be terminated before that date only by the Trust’s Board of Trustees. The Fund’s advisor is permitted to seek reimbursement from the Fund, subject to certain limitations, of fees waived or payments made to the Fund for a period ending three full years after the date of the waiver or payment. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund’s annual expense ratio to exceed the lesser of (a) the expense limitation in effect at the time such fees were waived or payments made, or (b) the expense limitation in effect at the time of the reimbursement.

Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. The example reflects the Fund’s contractual fee waiver and/or expense reimbursement only for the term of the contractual fee waiver and/or expense reimbursement.

Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	One Year	Three Years
Investor Class	\$153	\$556
Institutional Class	\$127	\$479

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. The Fund is newly-created and, as a result, does not yet have a portfolio turnover rate.

Principal Investment Strategies

Under normal circumstances, the Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities of small capitalization companies. The Fund primarily invests in common stocks of U.S. companies and may include common stocks that are offered in initial public offerings (“IPOs”). The Fund may also invest in real estate investment trusts (“REITs”). The Fund’s advisor considers small capitalization companies to be companies with market capitalizations within the range of those companies included in the Russell 2000® Index at the time of purchase. Because small capitalization companies are defined by reference to an index, the range of market capitalization of companies in which the Fund invests may vary with market conditions. As of November 30, 2019, the market capitalizations of companies included in the Russell 2000® Index were between \$14.5 million and \$9.05 billion. Investments in companies that move above or below the capitalization range of the Russell 2000® Index may continue to be held by the Fund in the Fund advisor’s sole discretion.

The Fund’s advisor uses a bottom-up approach that seeks to identify companies believed to have above-average potential for growth in the rate of return on invested capital and assets. The advisor’s investment process seeks companies that are industry leaders with sustainable competitive advantages; corporate cultures emphasizing strong, quality and experienced management; little or no debt; attractive relative valuations; and potential for asset base growth. The Fund’s advisor employs a dynamic process to analyze corporate performance and valuation, which includes evaluating the current trajectory and outlook for each company held by the Fund, as well as the value the market is assigning to the cash flow the company can generate. In selecting securities, the Fund’s advisor also considers other factors including, among others, political risk, monetary policy risk, and regulatory risk.

Principal Risks of Investing

Risk is inherent in all investing and you could lose money by investing in the Fund. A summary description of certain principal risks of investing in the Fund is set forth below. Before you decide whether to invest in the Fund, carefully consider these risk factors associated with investing in the Fund, which may cause investors to lose money. There can be no assurance that the Fund will achieve its investment objective.

Market risk. The market price of a security or instrument may decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic or political conditions throughout the world, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. The market value of a security or instrument also may decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry.

Small cap company risk. The securities of small capitalization companies may be subject to more abrupt or erratic market movements and may have lower trading volumes or more erratic trading than securities of larger, more established companies or market averages in general. In addition, such companies typically are more likely to be adversely affected than large capitalization companies by changes in earning results, business prospects, investor expectations or poor economic or market conditions.

Equity risk. The value of the equity securities held by the Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities held by the Fund participate, or factors relating to specific companies in which the Fund invests.

IPO risk. The market value of IPO shares will fluctuate considerably due to factors such as the absence of a prior public market, unseasoned trading, the small number of shares available for trading and limited information about the issuer. The purchase of IPO shares may involve high transaction costs. IPO shares are subject to market risk and liquidity risk.

Real estate investment trust (REIT) risk. The Fund's investment in REITs will subject the Fund to risks similar to those associated with direct ownership of real estate, including losses from casualty or condemnation, and changes in local and general economic, supply and demand, interest rates, zoning laws, regulatory limitations on rents, property taxes and operating expenses.

Growth-oriented investment strategies risk. Growth funds generally focus on stocks of companies believed to have above-average potential for growth in revenue and earnings. Growth securities typically are very sensitive to market movements because their market prices frequently reflect projections of future earnings or revenues, and when it appears that those expectations will not be met, the prices of growth securities typically fall.

Cybersecurity risk. Cybersecurity incidents may allow an unauthorized party to gain access to Fund assets, customer data (including private shareholder information), or proprietary information, or cause the Fund, the Advisor, and/or other service providers (including custodians, sub-custodians, transfer agents and financial intermediaries) to suffer data breaches, data corruption or loss of operational functionality. In an extreme case, a shareholder's ability to exchange or redeem Fund shares may be affected.

Liquidity risk. The Fund may not be able to sell some or all of the investments that it holds due to a lack of demand in the marketplace or other factors such as market turmoil, or if the Fund is forced to sell an illiquid asset to meet redemption requests or other cash needs it may only be able to sell those investments at a loss. Illiquid assets may also be difficult to value.

Management and strategy risk. The value of your investment depends on the judgment of the Fund's advisor about the quality, relative yield, value or market trends affecting a particular security, industry, sector or region, which may prove to be incorrect.

No operating history. The Fund is newly organized and has no operating history. As a result, prospective investors have no track record or history on which to base their investment decisions.

Performance

The Fund is new and does not have a full calendar year performance record to compare against other mutual funds or broad measures of securities market performance such as indices. Performance information will be available after the Fund has been in operation for one calendar year.

Investment Advisor

WCM Investment Management, LLC (the “Advisor” or “WCM”)

Portfolio Managers

John Rackers, Portfolio Manager, and Chad Hoffman, Portfolio Manager, have been jointly and primarily responsible for the day-to-day management of the Fund’s portfolio since its inception on October 30, 2019.

Purchase and Sale of Fund Shares

To purchase shares of the Fund, you must invest at least the minimum amount.

	Investor Class		Institutional Class	
	To Open Your Account	To Add to Your Account	To Open Your Account	To Add to Your Account
Minimum Investments				
Direct Regular Accounts	\$1,000	\$100	\$100,000	\$5,000
Direct Retirement Accounts	\$1,000	\$100	\$100,000	\$5,000
Automatic Investment Plan	\$100	\$50	\$5,000	\$2,500
Gift Account For Minors	\$1,000	\$500	\$100,000	\$5,000

Fund shares are redeemable on any business day the New York Stock Exchange (the “NYSE”) is open for business, by written request or by telephone.

Tax Information

The Fund’s distributions are generally taxable, and will ordinarily be taxed as ordinary income, qualified dividend income or capital gains, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an individual retirement account. Shareholders investing through such tax-advantaged arrangements may be taxed later upon withdrawal of monies from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.
